⚠ Symptoms you're probably feeling:

- Sales, marketing, and finance are in silos
- Static assumptions
- GTM drivers buried
- No cross-functional alignment
- Spreadsheet 'versioning'
- Suffering accuracy

Rolling 12-Month Scenario Engine

Blend predictions for known pipeline with historical drivers and model 12 months in one click.

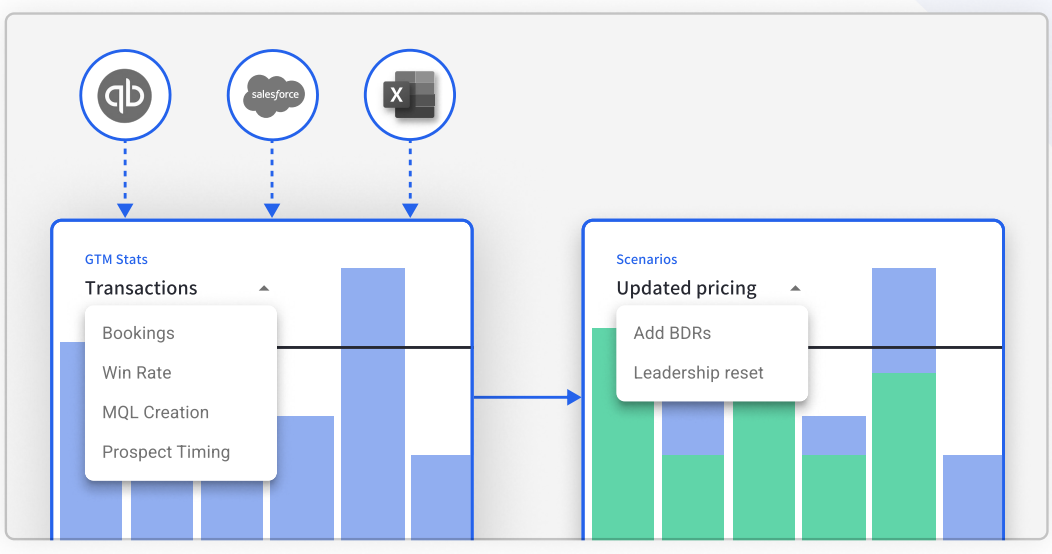

✨ Bring marketing, sales, and finance together with our AI-powered canvas for your growth story.

Automatic Drivers Layer

Make informed decisions and triangulate forecasts with dozens of practice performance drivers, calculated in real-time: stage-based conversion rates, pipeline waterfalls, campaign effectiveness, attribution modeling, and more.

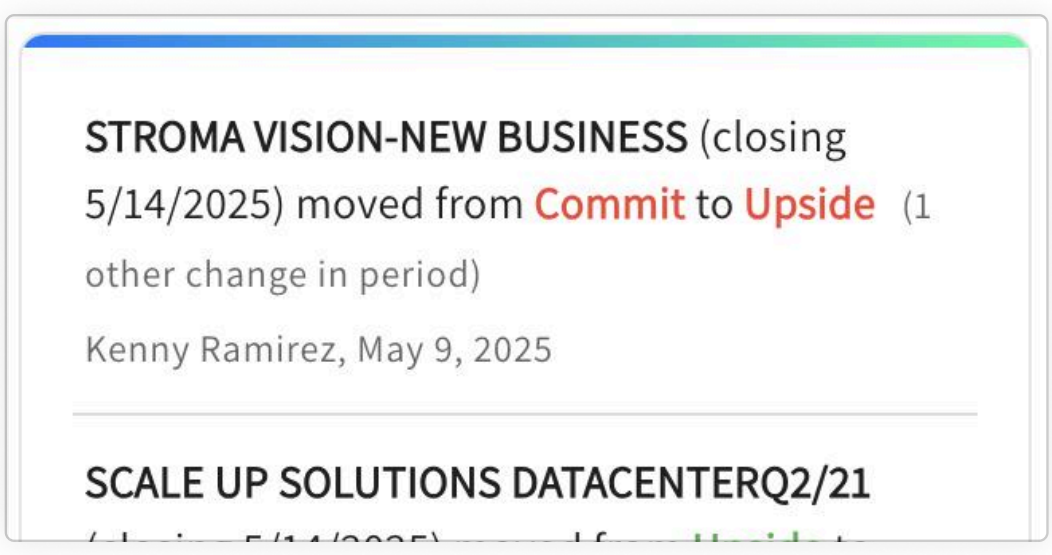

✨ See the *why* behind the number—ramp, win-rate, cycle time auto-computed for every segment.

Integrated Sales Commits

A lightweight commit workflow injects rep pledges straight into the master plan—full history, zero spreadsheets.

✨ Launch a superior in-quarter or in-month forecasting process in <60 minutes, team training included.

One engine, four lenses.

QFlow.ai unites pipeline, waterfall drivers, and real-time sales commits into a single scenario engine—ready for finance and the field.
